

VA4

ACTIVE SPEAKER SYSTEM

Vinyl is back, and now is the time to enjoy the turntable experience and sound. With VA4 there is no need for a phono pre-amp or separate amplifier – simply plug and play.

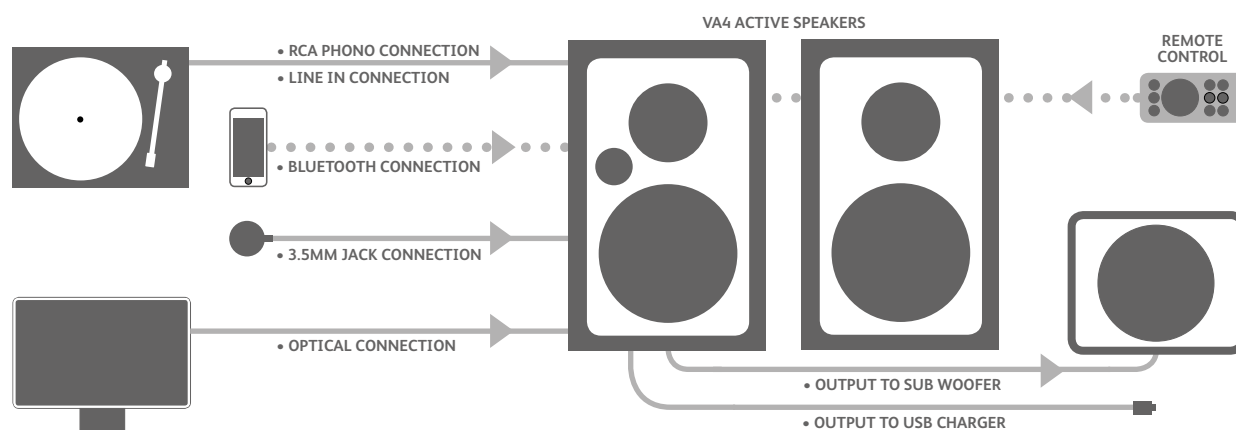

The VA4 is no one trick pony either – for those wanting contemporary connectivity it also delivers additional Analogue, Bluetooth® and Digital connections. There is a sub out jack and USB charger to make the VA4 a complete package, covering all your audio needs.

Audio performance is no less than astonishing and the 4" woofers combined with the 1" tweeters deliver a rich, rewarding and powerful sound.

- Turntable compatibility – simply plug and play
- Analogue, Bluetooth® and Digital connections for a wide range of devices
- 60-20 KHz frequency response for defined treble and deep bass
- 2 x 40W RMS for powerful sound
- Available in Red (as illustrated), White and Black – all with removable grilles.
